

North America's top forwarders dominates CASS rankings

ing has North forwarder, in Canadian revenues 1.5 per cent appearing 8. This the gap in an giant in the led year with its ng 16.4 million under second Canada, position decline in rs in the

fort to Nippon Express, which had shown a dramatic fall in European rankings. The Japanese forwarder retained ninth place in the US. Another Japanese forwarder, Kintetsu, managed a noticeable rise in Canada, moving from ninth to sixth position.

Notable movers in the US rankings included DSV, which rose from 16th to 14th, YRC Logistics that rose 20 places to 26th and Omni Export Services, with a 21-place rise to 30th.

DSV also made its mark in Canada in 2009, almost doubling its revenues and moving from 43rd to 15th.

The strength of Canada's perishables market is also reflected in the figures with a number of fresh food specialists doing well – most notably Clearwater Lobsters, which rose from 35th to 19th position.

Overall the US market, despite showing a decline in spend, fared better than the majority of European markets.
